Product highlights

High Pixel Density Display
The very best high density screen shows off your treasured photos with the same 'real life' rich detail and vibrant colours as high quality prints.

Rich, vibrant colours
Full colour display brings out the best in your photos with vibrant, real life colours by displaying the same full range of colours found in professionally printed photos.

Quality design and materials
Top quality design and exquisite materials include a solid metal stand, stylish frame and detailed finishing which convey an impression of value and refined taste, adding lustre to the photos displayed on the Photo Frame.

Auto orientation
Automatic landscape/portrait recognition employs a sensor that recognises the Photo Frame's orientation and displays each photo in its proper mode.

Multiple viewing modes
Flexible display modes give you the freedom to display your photos one image at one time, in thumbnail mode for quick, easy searches, or to create a slideshow of your most treasured photos.

Memory-Card Manager
the Memory-Card Manager is a set of two built-in memory card readers and featured software for displaying, editing, storing and organising your memory card photos directly in one hassle-free step - all without a PC. It accommodates two memory card slots: One slot accepts Compact Flash I (CF) cards while the second accommodates Memory Stick (MS,MSPro), secure digital (SD) Card and Multi Media Cards (MMC) and xD card. They all work as extended memory space - just like the Photo Frame's internal memory.

Smart Album
Smart Album allows you to create and manage albums, as well as to set up and adjust transition effects to your photo slideshows.

PhotoEffect Wizard
The PhotoEffect Wizard is easy-to-use feature for you to rotate, zoom in, crop and even adjust photo colour tones to black & white or sepia, right in the Photo Frame.

Easy USB connectivity
A USB connector is built into the device for easy and quick downloading photos from a PC.

Run on built-in battery or AC
AC or on-board battery power gives you the choice of operating your Photo Frame on standard AC power or cordlessly with the on-board rechargeable battery.

Advanced timer
A timer turns your Photo Frame on and off at times you choose. You can select different time slots to fit your personal schedule and to save energy.
